EXPERIENCE

Fission Consulting	**Chicago, IL / Durham, NC**
Director of Product, Durham Office Lead	January 2022 - Present
Manager	June 2020 – January 2022
Senior Consultant	February 2018 – June 2020

Current Role:
- Oversee all project delivery for Fission Consulting's Data Services practice
- Responsible for the roadmap and development of ATOM, Fission Consulting's suite of data software, tools, templates, and methodologies used in client-facing projects

Past Roles:
- Managed projects and workstreams related to SAP ECC (ERP Central Component) carve-outs, and SAP (ECC and S/4HANA), Epicor, and Dynamics 365 implementations
- Utilized Python (NumPy and Pandas libraries) to create complex data transformation workflows to support the Extract-Transform-Load (ETL) process for large ERP system migration projects (master and transactional data)
- Led SAP data migration projects using Legacy System Migration Workbench (LSMW) and Legacy Transfer Migration Cockpit (LTMC) for Manufacturing & Engineering and Consumer Products clients
- Executed data migration utilizing LTMC into SAP S/4HANA to support the buildout and sales cycle of a new SAP industry solution
- Project leadership examples:
    - **Dynamics 365 Implementation Data Migration Lead** for large North American Railcar Company – responsible for project planning, requirements gathering, data mapping, data extraction, data harmonization, and data transformation to support the migration of a client's master data and open transactional data (~30 objects) from SAP and AX 2012 to Dynamics 365
    - **Epicor Implementation Data Carve Out Lead** for large Aerospace Company – managed 2 consultants and numerous client resources to lead data carve out efforts during a divestiture. Was responsible for project planning, requirements gathering, data mapping, data extraction, and data transformation to support the migration of a client's master data from SAP to Epicor and the migration of historical data to a data warehouse solution
    - **SAP S/4HANA Implementation Data Migration Lead** for large Consumer Packaged Goods & Process Manufacturing Company – managed data migration team consisting of 2 client resources and 2 external consultants; facilitated daily workstream status calls with 20+ client and consulting team attendees to provide updates on progress and resolve outstanding issues
    - **SAP ECC 6.0 Carve Out** for large North American Railcar Supplier – managed team of eight consultants and a $1.2M budget for the divestiture and transfer of manufacturing division; challenges included COVID-19 related remote work requirement, travel restrictions, and resource constrained Seller IT team due to parallel SAP S/4 HANA implementation
    - **SAP ECC 6.0 Implementation Data Migration Lead** for large Construction & Engineering Company – developed and communicated weekly status updates for steering committee and maintained system cutover schedule to facilitate successful go-live; created user documentation and led workshops to train select user group on customer, material, and vendor creation

West Monroe Partners   **Chicago, IL**
Experienced Consultant   August 2016 – February 2018
Intern   Summer 2015

- Functioned as the lead IT business analyst in projects including M&A due diligence, software selections, ERP carve-outs, and RPA implementations. Projects involved system & process mapping, requirements gathering, IT strategy, and roadmap planning
- Led data workstream for successful carve-out of a $2B business from an international parent company:
    - Managed team of four developers; identified in-scope data objects; maintained critical issue log to manage break-fix process; created automated data validation process to reduce FTE hours on data integrity checks from 2 days to 3 hours
